Private Schools In NY

Soundview Preparatory School, an independent, coed day school for grades 6 – 12, is located on a 13 acre campus in Yorktown Heights, New York in northern Westchester County. Founded in the spring of 1989, the School has an enrollment of approximately 80 students. Students come from Westchester, Putnam and Rockland Counties in New York State and from Fairfield County in Connecticut, as well as from New York City.

College preparatory program offers challenges for the most advanced students while ensuring that those who need help receive it. A wide array of extra-curricular activities offers ample opportunities for students to develop their talents and explore their leadership abilities. Soundview's athletic program includes teams for soccer, basketball and Ultimate Frisbee.

Middle School

Soundview's Middle School program, for students in grades 6–8, addresses the developmental needs of younger students by fostering social and intellectual growth in an atmosphere that respects emerging adolescence.

Middle School students enjoy a homebase in their own building on campus that provides a warmer, more nurturing setting. Our curriculum is designed to establish a foundation of knowledge and skills in each major academic area and to promote good study skills, organization and work habits.

The Middle School academic program emphasizes reading and writing across all subject areas, which include language arts and literature, history, mathematics, science, foreign language, computer skills, physical education and the arts. Students are encouraged to become engaged learners by working on individual oral and written assignments, group projects and interdisciplinary explorations, all designed to develop individual responsibility and classroom

Upper School

Soundview has developed a broad curriculum for the Upper School designed to provide students with a thorough academic grounding for college. A strong emphasis is placed on developing writing skills for research, analysis and creative expression. Opportunities for advanced study in history, literature, mathematics, science and foreign languages challenge the most ambitious students. Teachers are available for extra help every day for students who need it. Requirements for graduation are available here.

Creative arts electives, independent study and internships extend opportunities for learning and encourage students to develop new interests or pursue existing interests to a deeper level. Advanced Placement courses are made available according to students' abilities and interests. AP courses in past years have included European and U.S. History, Government, Calculus, Biology, Physics, Spanish and Art.
